

## How to access SAS Enterprise Miner?

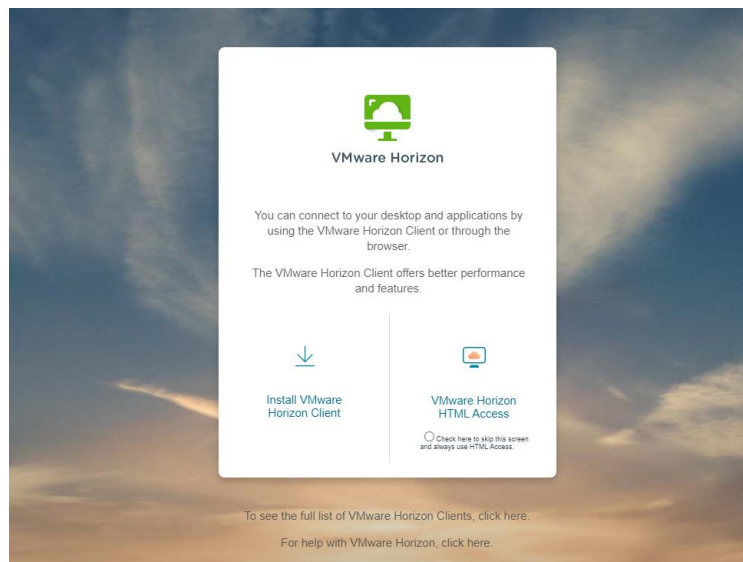

**Step 1:** Connect to **Cisco AnyConnect VPN** using your okey credentials (*For off-campus students only*)

You can use this link : <https://it.okstate.edu/services/osuvpn/> to download & setup VPN on your system

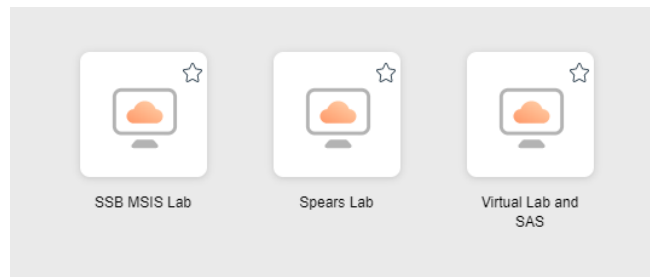

Once you are connected you will receive the connection established notification displayed on right.

**Step 2:** Access **OSU VMWare** from this link: <https://desktop.okstate.edu/> you can either download the VMWare application on your system or can access it online.

**Step 3:** Use your okey credentials to login into VMWare. Choose **Spears Lab** once logged in successfully.

**Step 4:** Once your VMWare desktop is loaded you will get the following screen. Search for **SAS Enterprise Miner Workstation** in the search bar.
