

Technology and Browsers

(<https://pixabay.com/vectors/computer-desktop-workstation-office-158675/>)

Technical Requirements

- A broadband internet connection
- Windows 7 or newer operating system are preferred
- Mac OS Mavericks will work but you will need to install it differently and things may function differently than the demos
- **VLC Viewer** (<https://www.videolan.org/vlc/index.html>) video player (click on link to download)

Supported Browsers

Canvas supports the following browsers. You should always use the most current version of your preferred browser. Your browser will notify you if there is a new version available.

Canvas supports the current and first previous major releases of the following browsers:

- Chrome 77 and 78.
- Firefox 69 and 70 (Extended Releases are not **supported***)
- Edge 44 (Windows only)
- Respondus Lockdown **Browser** (**supporting** the latest system requirements)
- Safari 12 and 13 (Macintosh only)

External URLs: To open certain URLs (http vs https) you may be prompted to click on the shield icon in your browser to “allow” access to the unsecure content. Simply click on the shield and click the “allow” button when asked.

Mobile Devices

1. The Canvas app: Available for iOS or Android: [Canvas Mobile Guides](https://community.canvaslms.com/docs/DOC-4048) (<https://community.canvaslms.com/docs/DOC-4048>)
2. If Flash-based content is used in this course, it won't display on Mobile devices, especially iOS devices.
3. SAS software will not work well on a mobile device.
