# Car Crash Data - For the Predictive Analytics Term Project
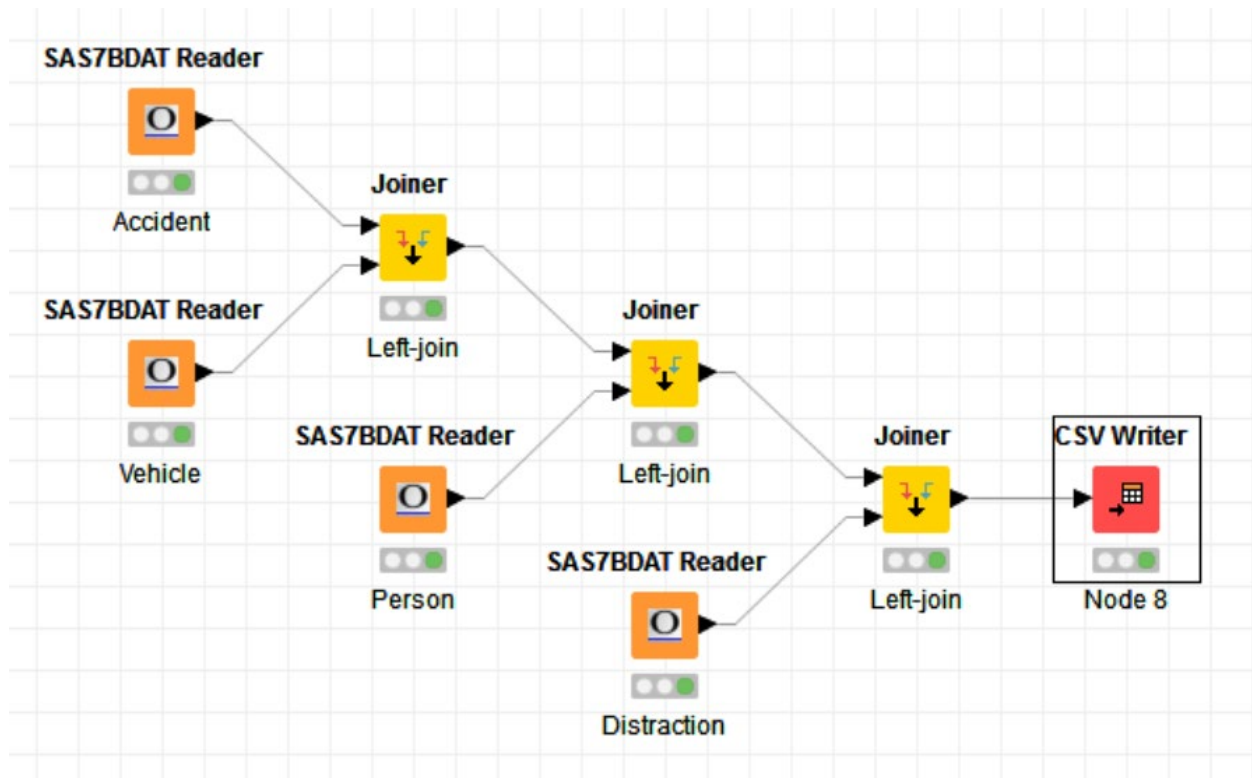

The data is given in SAS data format. You can easily import/read SAS data in KNIME.

There are four files for you to merge and use: ACCIDENT, PERSON, VEHICLE, DISTRACT.

## ER Model

# How to merge SAS files using unique identifiers fields?

**SAS7BDAT Reader**

Accident

**SAS7BDAT Reader**

Vehicle

**Joiner**

Left-join

**SAS7BDAT Reader**

Person

**Joiner**

Left-join

**SAS7BDAT Reader**

Distraction

**Joiner**

Left-join

**CSV Writer**

Node 8

Good luck!
